

10' / 8' Portable Display Options

Skyline® offers you the highest quality, most durable trade show displays, designer for impact and easy setup. That's why exhibitors have chosen Skyline® as the #1 brand of portable trade show displays.

1.) Mirage® Pop-Up Displays

The most durable pop-up frames available. Period.

Mirage frames are the most durable in the industry. If impacted, they bounce back without damage -- unlike any other pop-up. All Mirage frames share the same graphics, panels and accessories and all frames and channels have a **lifetime warranty**.

Mirage Classic: Fiberglass composite frame with manual connectors

Mirage Advantage: Fiberglass composite self-locking frame

Mirage Plus: Carbon composite self-locking frame

Is Mirage's composite frame more durable than aluminum?

10' / 8' Portable Display Options

3.) 10' Regatta® Fabric Display

- Shock-corded frame structure is made of durable steel, painted silver to match Skyline's hardware components.
- Tool-less assembly speeds up set up.
- Stretch knit fabric graphic, Dye-sub print process, Pillow-case style assembly over frame with zipper closure.
- (3) Telescoping Light kits.
- (1) Oval Shipping Case on 2 wheels.
- Includes estimated production prep time for client-supplied artwork setup to all specs.
- **10' is the standard Regatta® size. Others are available in custom sizes.**
- Note: The Regatta® graphic can be printed on both sides.

4.) PictureScope® Custom Frame Shapes

Step Outside of Square! PictureScope™ allows for angled frame sections so you can create a look that complements your graphics and supports your brand. Create nearly any angular shape imaginable.

Custom Frame Shapes

PictureScope's versatility allows you to create a custom-shaped display with nearly limitless angles. Design a shape that mirrors your logo or graphics, or choose from several standard shapes. PictureScope is lightweight, packs small and easily installs with a simple Allen wrench.
